## There Are Reasons Why the "Man's Store" Is Doing the Clothing Business of Washington!

### There Is Every Reason Why You Should Buy Your Easter Clothing at the "Man's Store."

We show the largest stock of high-grade Spring Clothing in Washington. It's our own Clothing (M. S. M. Clothing)—"Man's Store Make" Clothing. It reflects the very newest style ideas—often ahead of the fashions that emanate from the most exclusive tailors.

Every garment is made after our own ideas—in accordance with strictly scientific principles, which insure perfect fit, proper draping, and fullness. They're comfortable clothes, and always make a man feel perfectly at ease.

The fabrics are the best—they are properly shrunk (not by the live steam process which kills the wool), but by the special Kaufman cold water process. Even with the hardest kind of wear they will long retain the fresh and pleasing appearance of new cloth.

We offer you the best clothing that brains and skill can produce, and at a saving on every garment.

You need not hesitate to buy here. Our guarantee of

#### WOULD AMEND DISTRICT CODE

Chamber Committee Will Receive Suggestions.

Trade Body Also Taking Steps to Oppose Schedules of the Tariff Bill.

One of the special duties recently taken up by a subcommittee of the general committee on law and legislation of the Chamber of Commerce is the consideration of needed amendments to the District code. The subcommittee was recently appointed by A. Leftwich Sinclair, chairman of the general committee. Charles W. Claggett is chairman of the subcommittee, and he has addressed a letter to many of the lawyers of the city, as well as the business men and others, calling attention to the fact that his committee has the subject under advisement, and asking that any defects or amendments to the code that may suggest themselves to the persons addressed shall report them to the committee, where they may be duly considered.

In his letter Mr. Claggett explains that the obvious defects found in the code have not been corrected, because individual men have not felt called upon to take up the matter with Congress with a view to its proper amendment of the law. Mr. Claggett thinks that by concerted action and by bringing all the desirable amendments into a single report to be sent to Congress, and to be looked after by his committee, action may be had through Congress, which will greatly benefit the local statutes.

The Chamber of Commerce, through its committees on manufacture and wholesale and retail trade, is preparing to enter protest against some of the provisions of the Payne tariff bill, particularly those relating to the proposed increase of duty upon women's gloves and hosiery. The committee on manufactures specially has the matter under advisement, and resolutions upon the subject will be prepared and presented to the meeting of the chamber on the evening of April 13.

#### HOUSE ROBBED OF JEWELRY.

Fifty Dollars' Worth of Trinkets Stolen from Mrs. Weir.

Thieves entered the residence of Mrs. M. Weir, 1717 Thirteenth street northwest, yesterday morning, and after ransacking the house escaped with jewelry valued at \$50.

Scratches on the sill of a rear window found unlocked showed where the burglars entered and departed. There were evidences of their work in every room not occupied as a bedroom. They found the jewelry in a chamber bag in a rear room of the second floor.
